SUPPLIERS

**HELIX** is an industry cluster of Pharmaceutical, Biotechnology, and Medical Companies, which is managed in partnership with Diversity Alliance for Science (DA4S).

Our purpose is to guide the leadership, equality, and advancement of a diverse supply chain, with life sciences-specific practices that are validated through research and insights. The future of our industry evolves by the governance and benchmarks we enact today.

### Forum Members are Dedicated to:

- ◇ Provide strategic thought leadership, programming, and life science-specific practices to the lead industry.
- ◇ Engage procurement with communications, resources, tools, and suppliers to build an inclusive and equal supply chain.
- ◇ Advance supplier diversity by identifying and solidifying contract opportunities with business line stakeholders.
- ◇ Partner with diverse business organizations (NGOs) and chambers through support and sponsorships.
- ◇ Prepare small and diverse suppliers to do business within our industry by sponsoring readiness programs and mentorship opportunities.
